Description :

Prsentation de l'diteurHell exists. It is a real, geological, historical place beneath our very feet. And it is inhabited savagely. In an intense and imaginative tour de force, New York Times bestselling author Jeff Long takes readers into the depths of the earth where a primordial intelligence waits in the darkness. A decade has passed since doomed explorers unveiled a nightmare of tunnels and rivers honeycombing the earth's depths. After millennia of suffering terror and predation, humanity's armies descended to destroy the ancient hordes. Deep beneath the Pacific Ocean, a doomed science expedition killed the subterraneans' fabled leader, and suddenly it seemed that evil was dead and all was right with the world again. Now Deeper

arrives to explode that complacency and plunge us back into the sunless abyss. Hell boils up through America's subways and basements to take its revenge and steal our children. Against the backdrop of a looming war with China, a crusade of volunteers races to find the vestiges of a lost race. But a lone explorer, the linguist Ali von Schade, learns that a far greater menace lies in the unexplored heart of the planet. The real Satan can't be killed, and he has been waiting since the beginning of time to gain his freedom. Man and his pitiless enemies are mere pawns in the greatest escape ever devised. Mesmerizing and concussive, this darkly brilliant work of imagination galvanizes Jeff Long's reputation as a prodigious talent. At once a love story, the ultimate thriller, and an extreme adventure, Deeper will leave you breathless.

Revue de presse "Jeff Long has written a remarkable novel, an imaginative tour de force that somehow succeeds both as sober-minded allegory and nail-biting thriller." Jon Krakauer, author of *Into Thin Air* "This flat-out, gears-grinding, bumper-car ride into the pits of hell is one major takedown of a read." Lorenzo Carcaterra, author of *Sleepers* and *Street Boys* "Superb, thrilling, and terrifying." Vince Flynn

Présentation de l'auteur Hell exists. It is a real, geological, historical place beneath our very feet. And it is inhabited savagely.
