Description : Description du produit
First published in 1874, Lady Anna is a tale of enforced marriage in the midst of a world of radical politics and social inequality. We see the attempts of Countess Lovel to justify her claim to her title and the struggles of her daughter Anna as she must choose between a marriage of true love and one of convenience and social profit.

Prsentation de l'diteur
Josephine Murray, a commoner, marries Earl Lovel out of ambition rather than love. Soon after their marriage, her husband informs her that he has another living wife, which makes their union

invalid and their unborn daughter illegitimate. What follows is a long struggle in and out of court, and the only way that mother and daughter survive is with the help of Mr Thwaite, a tailor and a commoner. While trying to prove the legitimacy of her marriage, and therefore the right to the title of Countess, the daughter falls in love with Daniel Thwaite, the tailors son, much to the Countesss chagrin. Biographie de l'auteur As young adult, Trollope endured seven years of poverty in the General Post Office in London before accepting a better-paying position as postal surveyor in Banagher, Ireland in 1841. The years in Ireland formed the basis of his second career delineating clerical life in small cathedral towns.
