Description :

Prsentation de l'diteur "The most innovative fly tier I have ever known." --Lefty Kreh on Bob Popovics "Bob Popovics has brought more creative ideas to the table in the last two decades than any other tier out there." -- Dan Blanton This is the first and only book available on the tier whose techniques with epoxy and silicone revolutionized saltwater fly tying. The family of flies Bob Popovics developed over the last three decades (dubbed "Pop Fleyes," a spelling that incorporates part of his last name with the fact that eyes are a prominent feature in their design) have proven devastatingly effective for stripers, bluefish, false albacore, and many more species. This book goes beyond the basic recipe format to provide the thinking behind Popovics's pattern development, a guide to key tying techniques, and detailed notes on how to fish Pop Fleyes most effectively.
